

CARDLOCK FUELING DATA COLLECTION MADE EASY

Our web based **Card Fueling software** allows you to easily and accurately handle all aspects of your card fueling business from billing to taxes. It connects with all the major card fueling networks and solutions, giving you more flexibility and value for your customers. Our software has this part of your business handled so you can focus on your core business.

SECURE YOUR CARDLOCK FUELING WITH OUR SYSTEM

Daily Processing: Manage your card, billing, and credit information with iRely's integrated system for cardlock fueling. Easily manage import transactions, consolidate accounts, review margins and exemptions, and send invoices and credit letters.

Price: Attract more customers with iRely's flexible and automated pricing system for cardlock fueling. Apply discounts, use special pricing methods, and ensure correct billing and exchange with iRely.

Contracts: Expand your business with iRely's comprehensive contract management system for cardlock fueling. Offer contract pricing, track various types of contracts, and calculate pricing and limits with iRely.

Integration: We can seamlessly integrate this data with iRely ERP or other preferred accounting systems such as QuickBooks.

FUELING NETWORK INTEGRATIONS

Integrates with all major cardlock fueling networks and proprietary card solutions. Track your card, billing, and credit management information within a single system.

HOUSE CHARGES/PROPRIETARY CARDS

Automate house charges and proprietary cards. Save considerable time and improve accuracy by embossing cards, consolidating transactions, and managing cards.

SECURE FUND TRANSFERS

Employ EFT (Electronic Fund Transfer) to increase cash flow and decrease bad debts.

CARDLOCK ACCOUNTING

Lock out cards (either by card or in mass) to prevent delinquent accounts from accessing more fuel.

DELIVER REPORTS THAT MATTER FOR YOU AND YOUR CUSTOMERS

CUSTOMER REPORTS

Give your customers the reports they demand, such as mileage, vehicle service, and fuel reports by card or vehicle. Email, or download reports, or make them available online 24/7 with iRely Collaboration Portal.

INTERNAL REPORTS

Generate a wide array of reports to help you keep tabs on your sales, customers, products, taxes, and network fees. Calculate sales staff commissions, estimate network fees, evaluate customer sales and network effectiveness, and formulate display queries with iRely.

TAX REPORTS

Efficiently manage cardlock fueling taxes: handle codes, rates, exemptions, reports, documents, and audits with ease.

INTEGRATED WITH MULTIPLE NETWORKS

Our solution is integrated with CFN, PacPride, Voyager, Triple E, Petrovend, Gasboy, NBS, and Intevacon.
