

# LOTTERY MANAGEMENT SOFTWARE

iRely's Lottery Management software streamlines the management of lottery tickets, games, and inventory. It ensures accurate tracking, efficient processing, and secure handling of lottery-related activities, making it an essential tool for businesses involved in lottery sales.

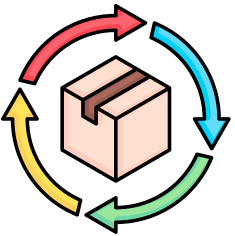

## COMPREHENSIVE LOTTERY ITEM MANAGEMENT

Create and manage lottery items with detailed information, including Game and Book details. Track remittance of unsold tickets after expiry.

## EFFICIENT LOTTERY GAME SETUP AND ACTIVATION

Configure and manage lottery games, receive inventory as inactive, and activate tickets when ready for sale, assigning them to specific bins.

## DAILY INVENTORY RECONCILIATION AND REPORTS

Perform daily counts of active tickets, recalculate totals, and post end-of-day transactions to ensure accurate inventory tracking reports.

## SECURE AND COMPLIANT OPERATIONS

Lock critical fields after initial setup to prevent unauthorized changes, maintain audit logs for transparency, and ensure compliance with state regulations.

## STREAMLINE YOUR LOTTERY MANAGEMENT AND OPERATIONS

- **Efficiency:** Streamlines lottery inventory and sales processes, saving time and reducing manual effort.
- **Accuracy:** Enhances accuracy in tracking and counting lottery tickets, minimizing errors.
- **Security:** Reduces the risk of theft by locking critical fields after initial setup.
- **Compliance:** Ensures adherence to state regulations for lottery games, avoiding potential legal issues.
- **Transparency:** Provides clear audit logs and tracking, enhancing accountability and trust within the organization.
