

THE SMART WAY TO MANAGE YOUR WHOLESALE PETROLEUM OPERATIONS

Our ERP solution transcends fuel delivery logistics, transactions, and tax compliance, incorporating robust accounting and cash management features. Enhanced with Power BI, it offers a comprehensive suite for your wholesale operational needs.

DRIVE YOUR BUSINESS FORWARD WITH OUR ERP SYSTEM

PRICING AUTOMATION

Set your prices automatically with flexible options that guarantee your profit margins.

POWER BI REPORTING

Seamless tax and financial reporting using Power BI for efficient and accurate insights.

DIGITIZED DOCUMENTATION

Consolidate BOLs, delivery tickets, and vendor payments with our system that records documents and generates electronic invoices seamlessly.

REAL TIME RACK PRICE

Integrated with external data sources from DTN and OPIS to provide you with up-to-date and historical fuel prices.

ACCOUNTING MANAGEMENT

Transportation is closely integrated with all accounting modules leveraging all of Irely's ERP and Accounting capabilities ensuring accurate accounting and management of your cash and fixed assets.

3RD PARTY COMPATIBILITY

Connect our ERP system with other logistics applications that you prefer.

FREIGHT CALCULATION

Save on your freight costs with competitive and customizable calculations.

LOGISTICS PLANNING

Create multiple loads from a contract with one click. Create and update inbound and outbound loads easily.

INVENTORY AND TANK MANAGEMENT

Effortlessly manage fuel capacity and track transactions across locations with our all-in-one inventory and tank management solution.

OUR WHOLESALE OPERATIONS SOLUTION IS A COMPREHENSIVE ERP TOOL THAT INTEGRATES WITH YOUR EXISTING SYSTEMS AND TAKES CARE OF ALL THE ASPECTS OF TRANSPORT LOGISTICS.
